

Marine Engineering and Shipbuilding Abstracts

Index to Volume 26, 1963

	Issue	Page		Issue	Page
AIR COMPRESSORS			Steam Generating Plant Incorporating Flash		
Compressor Cylinder Pressure Measurements	November	197	Evaporator*	March	55
Demag Turbocharger	March	40	Supercharged Design for a Supercharged		
Moisture in High Pressure Air Compressors	September	150	Steam Generator	December	201
AIR CONDITIONING AND VENTILATION			Supercharged Steam Generator—Its First		
High Efficiency Ventilation	August	139	Shipboard Installation	October	174
Thermoelectric Air Conditioning	July	117	Waste Heat Recovery in Tanker	May	80
ANCHORS, CABLES AND RIGGING			CARGO HANDLING AND STOWAGE		
Securing Anchor Chain Bitter Ends ...	June	100	Bow Mooring Device	August	133
AUXILIARY MACHINERY			Bulk Carrier with Hoistable Car Decks ...	June	100
Accommodation Ladder System	October	178	Cargo Ship with Twin Hatches	March	38
Waste Heat Steam Turbo-generator ...	October	169	Coastal Tanker for Multigrade Cargoes ...	October	168
BEARINGS			Combined Grain Feeder and Hatch Cover	July	114
Approximation for Finite Journal Bearings	April	70	Development of Liquefied Petroleum Gas		
Bearing Flexibility and Damping at the First			Tankers	June	102
Critical Speed	August	142	Double Hull Freighter for Liquid Gases* ...	August	143
Bronze Case Cuts Rate of Bearing Wear ...	August	140	Equipment for Handling and Stowing Cargo*	September	163
High-speed Angular Contact Bearings ...	January	13	Float or Sink Oil Hose for Offshore Loading	August	141
Non-linear Hydrodynamic Slider Bearing ...	February	34	Folding Gantry for Bulk Cargo Handling	September	160
Non-linear Vibrations in Axial Direction of a			French Tanker with Free-flow Cargo Oil		
Ball Bearing	January	17	System	November	185
Operational Problems with Stern Tube			Fully Automatic Oil Cargo Handling ...	December	207
Bearings	December	211	Guiding Mechanism for Ship's Cargo Hatch		
Preventing Corrosion in Bearings	November	193	Cover Sections*	February	36
Roller Bearings for Propeller Shafts	May	76	Hatch Cover System*	December	215
Self-lubricated Bearings	September	161	Hydraulic Power Transmission in U.S.		
Simulation of Bearing Whirl on an Elec-			Navy Ships	November	182
tronic-analogue Computer	July	125	Italian L.P.G. Carrier	February	32
Thrust Bearing	June	104	Method of Insulating Vats for Liquefied		
Thrust Bearing Loads Measured Electronic-			Gases*	December	216
ally	February	33	New Design of Self Unloader	April	66
Vaporization of the Oil Film in the Short			Offshore Loading Buoys—Tanker Mooring		
Journal Bearing with a Circumferential			System of the Future	December	213
Oil Groove	August	141	Remote Control for Handling Tanker		
BOILERS AND ANCILLARY EQUIPMENT			Cargoes	January	3
Arrangement of the Rear Surfaces of Boilers	June	105	Ship for the Transport of Low Temperature		
Auxiliary Steam for Motor Ships	November	183	Liquid Cargoes*	November	200
Boiler Cleaning Control Sub-loop	June	106	Ship for Transportation of High Tempera-		
Boiler Fires	October	175	ture Molten Material*	February	35
Development and Evaluation of a Super-			Submerged Oil Terminal	July	112
charged Steam Generating System	August	137	Tanker for Liquefied Gas*	April	71
Finned Tube Wall	December	214	Transport of Liquefied Gas*	April	71
Flow Modelling of Furnaces and Ducts ...	May	79	Vessel for the Transport of Liquid Gas* ...	May	91
Maritime Nuclear Steam Generator Study	May	79	CAVITATION		
New Refractory Lining for Boilers	August	137	Cavitation	August	142
Operation of Oil-fired Boilers with Extremely			Cavitation Resistant Steel	January	18
Low Excess Air	November	198	Cavitation Tests	May	74
			Cavitation Tests on Hydrofoils Arranged in		
			Accelerating Flow Cascade	March	53

* Patent Specifications

	Issue	Page		Issue	Page
Effect of the Entrance Profile of a Centrifugal Pump Impeller Upon Cavitation Observations on Cavitation Damage in a Flowing System	February	33	Zinc Anodes Found Seaworthy	May	90
Propeller Cavitation as Influenced by Air Content of the Water	December	214	Zinc Anodes in a Crude Oil Tanker	March	54
Pulsation Method for Generating Cavitation Damage	July	116	DISTILLING AND WATER TREATMENT		
Unified Theory of Cavitation Damage	November	197	Distilling Plant	April	62
Visual Cavitation Studies of Mixed-flow Pump Impellers	October	178	Flash Distillation Plant	May	79
	June	105	Sea Water Desalination Without Metallic Heat Transfer Surfaces	April	68
CORROSION AND FOULING			Steam Generating Plant Incorporating Flash Evaporator*	March	55
Analytical Techniques in Corrosion Product Identification	June	106	DOCKS, HARBOURS AND BERTHING		
Anodes Stop Dockside Corrosion of Pleasure Boats	January	18	Bow Mooring Device	August	133
Cathodic Protection for Offshore Acoustic Towers	October	178	Clyde Dry Dock Project	June	105
Cathodic Protection of Ships	July	125	Evaluation of Mooring Forces	November	198
Cathodic Protection Reduces Corrosion Fatigue Cracking of Steel in Sea Water	July	126	Floating Catamaran Crane	May	89
Cathodic Protection—Theory and Practice Characteristics and Applications of Zinc Anodes for Cathodic Protection	November	197	Floating Docks	August	141
Chemical Analysis of Stainless Steel Corrosion Products	January	17	Gangway*	January	19
Clean Oil Tanker Protection by Oil-soluble Inhibitors	June	105	Mono Mooring Buoy	November	182
Corrosion and Scale Deposition on Heat Transfer Surfaces	May	75	Recovery and Containing of Oil Spills	July	115
Corrosion Diagrams of Iron and Steel in Oxidizing Media	February	34	Submerged Oil Terminal	July	112
Corrosion Engineering and Corrosion Science Corrosion from the Shipowner's Viewpoint	April	70	ELECTRICAL EQUIPMENT AND INSTALLATION		
Corrosion of Nickel-base Material in Gas Turbine and Boiler Atmospheres	November	197	A.C. Brushless Generators for Marine Service	November	182
Corrosion of Unprotected and Painted Steel Weldments in Sea Water	May	90	Diesel Electric Propulsion	October	169
Corrosion Resistance in Sea Water of Medium Strength Aluminium Bronzes	July	114	Generator Behaviour in Response to Suddenly Applied Loads	July	126
Current Distribution in Cathodic Protection	January	17	Impact of Electronics on Warship Design	April	66
Durability Test of Material Placed on Ocean Floor	October	178	Lighting in Ships	August	130
Electric Potential Responses of Silver, Steel and Brass Stressed in Tension in Sodium Chloride Solutions	July	125	Magnetohydrodynamic Generators for Ship Propulsion	November	198
Epoxy-polyamide Mixture Resists Splash Zone Corrosion on Offshore Structures	January	12	Silicones Damage Enclosed Motors	May	77
Flame Sprayed Aluminium for High Temperature Protection	March	54	Use of Semi-conductors in Marine Communication Equipment	November	183
Flame Sprayed Fusible Alloys	June	105	ENGINES—STEAM RECIPROCATING		
Improved Laboratory Technique for Investigating Corrosion by Recirculating Cooling Water	June	105	Reciprocating Pump Piston Rings	October	166
Influence of Oxygen on High Temperature Aqueous Corrosion of Iron	June	105	Russian Auxiliary Steam Engine	September	161
Lead Corrosivity of Lubricating Oil	November	198	ENGINES—STEAM TURBINE		
Measuring Corrosion with Resistance Probes	July	110	Marine Steam Turbines	October	169
Neoprene Coatings for Tankers	May	90	Marine Turbine Thrust Tests	July	117
pH Micro-electrodes for Use Near Corroding Surfaces	March	50	New Design of Turbine Power Plant	March	46
Pitting Corrosion of Aluminium in Contact with Stainless Steel	November	197	Single Level Steam Turbine	December	202
Sea Water Corrosion at Atmospheric and Elevated Temperatures	April	70	Standard Turbine Frames	August	139
Stress Corrosion of Type 304 Stainless Steel in Simulated Superheat Reactor Environments	May	83	Steam Turbine Wheel, Batch and Blade Vibrations	March	47
Successful Cathodic Protection of Ship	September	159	Thermal Problems in Quick Starting and Rapid Load Increase of Marine Steam Turbines	February	33
Testing for Stress Corrosion Cracking	April	69	Waste Heat Steam Turbo-generator	October	169
			FIRE PREVENTION		
			Boiler Fires	October	175
			Fire Extinguishers for Hydrofoil Ship	August	135
			Jet Foam Monitor	June	99
			FISHING		
			Deep Sea Trawler*	July	127
			First British All-refrigerated Stern Trawler	February	27
			French Stern Trawler	October	167
			New Class of Polish Stern Trawlers	April	61
			Portuguese Stern Trawler	January	17
			Stern Trawler*	March	55
			Trawler*	May	92
			Trawler*	November	199
			Trawler with Unmanned Engine Room	November	186
			FUELS AND COMBUSTION		
			Design of Simplified Combustion Control System for Supercharged Steam Generators	November	183

	Issue	Page		Issue	Page
Pulse Combustion	December	213	Research on Heat Transfer to Fluids Flowing Through Non-circular Channels ...	January	18
Quick Analysis of Combustion Gases ...	August	142	Theoretical Method of Calculating Heat Exchange in Furnaces	August	142
Results of Using Liquid Additive for Oil Fired Boilers	June	106	Use of Visible Light Models for Study of Radiant Heat Transfer in Furnaces ...	May	80
Rules for Methane-fired Ships	October	177	HYDRAULIC PLANT		
Some More Light on Diesel Combustion ...	June	106	Hydraulic Governor	September	146
Spill Pressure Jet Atomizer	March	54	Hydraulic Power Transmission in U.S. Navy Ships	November	182
Sulphur in Oil Fuels	February	34	Hydraulic Steering Gear*	March	56
Theory of Ignition and Auto-ignition ...	December	213	Hydraulic Steering Gear*	May	91
Water Washing of Bunker C-type Fuels ...	June	95	Hydraulic Torque Converter	March	47
GAS TURBINES			ICE AND ICEBREAKERS		
Bladeless Gas Turbines	February	24	Icebreaking Tug for Sweden	May	76
British Gas Turbine	May	84	Sawing through Ice	February	33
Closed Cycle Gas Turbine for Ship Propulsion	January	11	INSPECTION AND TESTING		
Free-piston Engine Vessel	August	141	Boiler Tube Test Sleeve	March	47
Gas Turbine Application in U.S. Coast Guard Vessels	December	214	Design and Testing of the Propulsion System for the Liner <i>Canberra</i>	November	185
Gas Turbine Marine Combined Cycle ...	March	45	Friction Measurement with the Tapered Spindle Top	March	53
Gas Turbines for Marine Propulsion ...	November	184	Impact Properties of Mild Steel Weld Metals ...	October	177
Norwegian Gas Turbine-powered Craft ...	July	119	Magnetic Cylinder Inspection	October	177
Proposed Gas Turbine Propulsion Plant for Great Lakes Oil Carriers	December	213	Marine Turbine Thrust Tests	July	117
Recent Operating Experience with British Naval Gas Turbines	May	86	Measuring Wall Thickness by the Pulse Echo Technique	October	178
Russian Experience with Free-piston Machinery	July	123	Reaction Vibration Machine	January	17
Russian Gas Turbine Tanker	March	49	Single-flank Gear Tester	June	97
Small Marine Gas Turbine	July	115	Ultrasonic Weldment Inspections Currently in Use	May	89
GEARINGS AND COUPLINGS			INSTRUMENTS AND CONTROLS		
Development of Circarc Gearing	January	15	Application of Numerical Control to Oxygen Cutting	November	183
Gear Failure Due to Vibration	August	142	Automatic Control of Clutch*	February	35
Gearing for Marine Main Propulsion and Auxiliaries	November	185	Automatic Controls on 28,000-d.w.t. Ore Carrier	July	124
Hydraulic Torque Converter	March	47	Automatic Guidance Device	September	162
Manufacture of Large-size Precision Gears	September	149	Automation and Remote Control	June	94
U.S. Laboratory for Gear Measurements ...	October	173	Automation and Remote Control in Two Japanese Ships	February	26
GROUND EFFECT MACHINES (HOVERCRAFT)			Central Control for Ships' Engine Rooms	May	89
Cruise Performance of Channel-flow Ground Effect Machines	January	14	Centralized Control in British Cargo Liner	March	41
Dynamic Behaviour of Ground Effect Machines in Motion Over Waves ...	November	193	Collision Risk Indicating Graph	August	136
Hydroskimmer	January	16	Computer-controlled Flame Cutting in Shipbuilding	January	18
Side-wall Hovercraft	January	17	Control Engineering in Marine Practice ...	November	188
HEAT EXCHANGERS AND HEAT TRANSFER			Data Logging in British Cargo Ship ...	September	160
Compact Heat Exchangers	July	126	Density Gauge for Water-steam Mixtures	December	214
Correlations for Heat Transfer by Non-luminous Radiation between Boiler Flue Gases and Grey Walls	December	213	Electrical Remote Control System	October	167
Corrosion and Scale Deposition on Heat Transfer Surfaces	February	34	Electronic Temperature Transmitter ...	July	112
Economics of Using Heat Transfer Promoters	June	106	Engine Wear Alarm	May	83
Experimental Investigation of the Conditions of Deterioration of Heat Transfer During Boiling in Tubes	July	126	Hydraulic Governor	September	146
Free Convection and Radiation Heat Transfer from Fin-on-tube Heat Exchangers	July	126	Instrumentation Problems in Nuclear Reactors for Ship Propulsion	January	17
Heat Transfer by Combined Forced Convection and Thermal Radiation in a Heated Tube	March	54	Japanese Dry Cargo Vessel with Advanced Automation	May	84
Heat Transfer in the Cylinders of Internal Combustion Engines	September	155	Marine Instrumentation and Control ...	September	154
Local and Overall Heat Transfer Coefficients in Baffled Heat Exchangers	February	33	Marine Power Plant Control System ...	April	63
Pressure Drop and Heat Transfer During Flow Across Unbaffled Tube Banks ...	March	52	Measuring Corrosion with Resistance Probes	May	90
			Methods of Measuring Torque	November	191
			Miniature Engine Thermometer	July	110
			Novel Liquid Level Control	March	53
			Numerically Controlled Flame Cutting ...	November	184
			Pneumatic Control Systems for Use in Ships	October	169
			Pneumatic Engine Control System ...	December	205
			Principles of Automatic Controls and Application in Mercantile Marine ...	October	177
			Radio-active Luminous Material Hazard ...	June	100

	Issue	Page		Issue	Page
Radio Control of Cranes	March	53	Polish Diesel Engine	August	131
Remote Control for Handling Tanker Cargoes	January	3	Problem of Diesel Engine Rating	September	159
Remote Control of Steam Turbines	December	210	Problems of Oil Injection in Compression Ignition Engines	January	18
Semi-conductor Strain Gauges	September	161	Rating Turbocharged Engines	December	202
Ships with Centralized Control for Oceanographic Survey	June	99	Research on the Compound Engine	March	47
Thermocouple for Use in Oxidizing Atmospheres at High Temperatures	August	142	Reversal Process of Governor-controlled Marine Diesel Engine	February	24
Thrust Bearing Loads Measured Electronically	February	33	Short-stroke Diesel Type DB	November	197
Torque Indicator and/or Controller*	August	143	Small Bulgarian Marine Engine	November	188
Torque Measurements on Rotating Shafts	July	113	Some Steps Towards Calculating Diesel Engine Behaviour	April	70
Transistorized Control for n.s. <i>Savannah</i>	November	185	Test of a 12-cylinder Large Bore Engine	June	103
Trawler with Unmanned Engine Room	November	186	Theory of Periodic Heat Transfer in Internal Combustion Engine	October	178
INTERNAL COMBUSTION ENGINES			Thermal Study of a Diesel Engine	April	70
10-cylinder Hawthorn-Sulzer Engine	August	129	Trawler Re-engined	September	162
1,800-b.h.p. Coaster on Intergrade Fuel	February	29	Turbocharged Loop Scavenge Diesel Engine Turbocharger and Supercharging of Large Two-stroke Diesel Engines	June	105
3,000-b.h.p. Deutz Marine Engine	September	153	Turbocharging a Small Medium-speed Two-cycle Opposed Piston Diesel Engine	December	214
Characteristics at the End of Injection in Diesel Engine Fuel System	August	140	Two-stroke Engines in Combination with Compressors and Turbines	January	16
Combined Silencer and Spark Arrester	February	34	Variable Compression Ratio Piston	November	194
Combustion Chamber Design for Two Stroke Cross-flow Outboard Engines	March	53	Wear Problems in Large Engines	May	80
Converting Double-acting Engines	September	151	JOINTING AND SEALING		
Demag Turbocharger	March	40	Improved Design of Gaskets for High Pressures and Temperatures	September	156
Developments in the British Large Marine Diesel Engine During the Past Decade	October	169	LIFE SAVING EQUIPMENT		
Diesel Design Data	October	175	Lifeboat*	June	107
Diesel Electric Propulsion	October	169	Lifeboat Launching System	August	134
Energy Content of Exhaust Pulses of a Two Stroke Engine	January	11	Polish-made Inflatable Life Rafts	December	214
Engine Room Arrangements for All-aft Type Motor Ships	December	211	Self-righting Lifeboat	July	111
Experimental Check on the Methods Used for Determining the Length of the Resonance Tube of a Diesel	November	197	Submarine Escape Vest	September	162
Experimental Diesel Engine Development	April	62	LUBRICATION		
First Ship with British-built Large-bore Engine	September	156	Co-ordination of Used Oil Properties and Diesel Maintenance	November	197
Formation of a Blow-down Pulse in the Exhaust System of a Two Stroke Cycle Engine	May	89	Effect of Polymeric Dispersants on Engine Sludge	December	213
French-built Doxford P Type-engined Ship	October	172	Effects of Two-dimensional Sinusoidal Roughness on the Load Support Characteristics of a Lubricant Film	October	177
Gas Exchange Processes in I.C. Engines	November	191	Factors Influencing Lubricating-oil Contamination in Diesel Engines	December	214
Gas Pressure-actuated Injection System	April	58	Fuel Pump Type Lubricator System	December	203
Hardened Crankshaft Fillets	November	195	Generation of Pressure between Rough, Fluid Lubricated, Moving Deformable Surfaces	December	213
Heat Transfer in the Cylinders of Internal Combustion Engines	September	155	Lead Corrosivity of Lubricating Oil	July	110
Highest Powered British-built Marine Diesel	September	147	Soda-lead Soap Gear Greases	March	54
High Power Tests of Large Bore Engine	July	118	Surface Coatings and the Load Carrying Capacity of Steel	July	119
Improved Piston Design for I.C. Engines	August	132	Use of Additive-treated Oils in C.I. Engines	September	161
Influence of Direction of Fuel Injection and Wall Temperature Upon Combustion in a Diesel Engine	February	34	MACHINE TOOLS AND PROCESSES		
Japanese Naval Engines	June	97	Arcair Process	September	150
Large Harland-B. and W. Poppet Valve Engine	December	206	Boiler Cleaning Control Sub-loop	June	106
Marine Diesel Engines, Some Comments on Current Trends	January	18	Electro-print Marking Device for Steel Plates	February	34
New Diesel Engine Ranges	May	85	Hardened Crankshaft Fillets	November	195
New Italian Diesel Engines	October	171	Press for Propeller Blade Correction	January	18
New Norwegian Diesel Engine	October	174	Profiling Machines at Arendal Shipyard	October	176
New Range of Diesel Engines	May	73	MATERIALS, STRUCTURES AND STRESSES		
New Vee Engine	November	189	Added Risks in Ship's Aluminium Superstructure	February	34
Observations on Cylinder Liner Wear	February	21	Analysis of Engineering and Basic Research Aspects of Neutron Embrittlement of Steels	March	52
Operating Auxiliary Engines on Boiler Oil	September	154			
Performance Results of Converted Liberty Ships	April	67			
Polish-designed Diesel Engine	January	10			

	Issue	Page		Issue	Page
Beam and Column Strength of Stiffened Plates	August	130	Stress Analysis of Wire Rope in Tension and Torsion-determination of Contact Forces	February	34
Behaviour of Ferritic and Austenitic Boiler Steels	October	177	Stress Concentration in Multiple Notches	February	33
Cast Iron for Low Temperature Work ...	May	89	Stress Concentrations for a Family of Uniformly-reinforced Square Holes with Rounded Corners	January	18
Cavitation Resisting Russian Steel ...	April	69	Stress Corrosion Cracking	October	172
Crack-extension Force for a Part-through Crack in a Plate	November	198	Stress Relieving of Welded Assembly ...	November	186
Crack Propagation in a Low-cycle Fatigue of Mild Steel	November	193	Substituting Materials	January	15
Critical Analysis of Crack Propagation Laws	December	213	Surface Coatings and the Load Carrying Capacity of Steel	July	119
Cumulative Fatigue Damage with Progressive Loading	November	198	Surface Reactions During Metal Fatigue ...	May	90
Cycling Test on n.s. <i>Savannah</i> Reactor Vessel	February	24	Testing for Stress Corrosion Cracking ...	April	69
Dislocation Substructure versus Transgranular Stress Corrosion Susceptibility of Single Phase Alloys	June	105	Tests of a Rectangular 9 per cent Nickel Steel Vessel	January	15
Durability Test of Material Placed on Ocean Floor	January	12	Tests of Flat Plated Grillages Under Uniform Pressure	August	130
Dynamic Stresses Created by a Moving Crack	February	33	Tube Failure under Simultaneous Influence of Stress and Oxygen	July	126
Embrittlement Occurring in Welded Joints of High Tensile Steel	October	178	METALLURGY		
Engineering Data on Inconel	November	184	Behaviour of Ferritic and Austenitic Boiler Steels	October	177
Experimental Investigation of Stresses in an HY-80 Marine Boiler Drum	February	30	Cast Iron for Low Temperature Work ...	May	89
Fading of Residual Stresses Due to Repeated Loading	April	70	Continuous Dip Aluminizing of Steel ...	November	198
Fatigue Crack Propagation	October	170	Dislocation Substructure versus Transgranular Stress Corrosion Susceptibility of Single Phase Alloys	June	105
Fatigue Crack Propagation and Applied Stress Range	June	105	Effect of Metallurgical Variables on Transition Temperatures	July	123
Fatigue Tests on Mild Steel Specimens with Artificially Induced Residual Stresses	March	54	Engineering Data on Inconel	November	184
Fatigue Tests on Model Propeller Tailshaft Assemblies	July	114	Metallurgical Factors Influencing Hot Ductility of Austenitic Steel Piping at Weld Heat-affected Zone Temperatures ...	September	162
Flame Sprayed Fusible Alloys	July	125	New Steel for Superheated Tubing ...	July	116
Forces and Moments on an Oscillating Hydrofoil	August	141	Spheroidal Graphite Cast Iron	June	102
Forces Shearing Wire Cable in Flexure ...	December	213	NAVIGATION AND NAVIGATIONAL EQUIPMENT		
General Procedure for Analysing Thick Shells of Irregular Shapes for Mechanical and Thermal Loading	December	214	Active Rudder and Bow Propeller Units ...	August	135
Influence of Stiffener Size on Buckling Pressures of Cylindrical Shells	March	37	Apparatus for Converting Wave Energy into Electrical Energy*	December	215
Influence of Structure of Cast Iron Cylinder Liners on Their Durability	July	117	Bow Jet Manoeuvring System	June	97
