

AN APPEAL

There is an acute shortage of copies of *Calendars 1939 Steam Tables* and the corresponding Mollier Chart : the publishers are uncertain when a reprint will be possible.

As copies of this volume are urgently required for the advanced course of engineering at the Royal Naval College, Greenwich, any officers in possession of this volume who would be prepared to lend or dispose of it are asked to communicate with Commander (E) J. I. T. Green, R.N., at the College.
