

Marine Engineering and Shipbuilding Abstracts

Index to Volume 23, 1960

	Issue	Page		Issue	Page
AIR CONDITIONING AND VENTILATION					
Air Conditioning in s.s. <i>Rotterdam</i> ...	February	23	Manufacture and Maintenance of Marine Diesel Parts ...	September	160
Gas Extraction Plant for Tanker ...	February	24	New Design of Steam Valve ...	May	78
High Velocity Air Conditioning ...	August	136	Slackness of Anti-friction Bearings ...	February	33
Hydrodynamic Study of the Ventilation of Ships ...	January	15	Starting Clutch for Gas Turbine ...	April	56
Lithium Bromide Air Conditioning ...	February	21	BOILERS AND SUPERHEATERS		
New Ventilation Closure Seal ...	March	44	Automatic Boiler Control in s.s. <i>Canberra</i> ...	May	77
Refrigeration for Very Large Marine Air Conditioning Installations ...	September	146	Cleaning Superheater Steam Sides ...	July	124
Thermoelectric Air Conditioning and Refrigeration ...	January	8	Diagram for Calculating Circulation in Water Tube Boilers ...	July	124
AUXILIARY EQUIPMENT					
Engine Room Crane ...	October	166	Flow Test on Boiler Furnace Models ...	October	177
AUXILIARY MACHINERY					
A.C. Adjustable Speed Drive for Ships ...	June	94	Frictional Pressure Losses in Steam and Water Mixtures in Vertical Boiler Tubes	December	214
Auxiliary Generating Plant ...	August	140	Main Boiler Operation and Maintenance ...	February	31
Experimental Study of Cavitation in Centrifugal Pump Impellers ...	September	159	Mature Considerations in Superheater Design	May	79
Gas Turbine Fire Pump ...	January	14	Oil-ash Corrosion of Superheater Alloys ...	August	128
Seagoing Lighting Generator ...	September	160	Regulating Superheat in Steam Boilers*	July	126
Steam Turbine-driven Deck Machinery ...	September	158	Use of Flow Models for Boiler Furnace Design ...	February	34
Water Turbine-driven Ballast Pump ...	September	158	Waste Gas Steam Boilers ...	May	89
BEARINGS					
Anti-whirl Turbine Bearing ...	November	183	CARGO HANDLING AND STOWAGE		
Bearing Oil Ring Performance ...	April	69	Aluminium Hatch Boards ...	July	113
Centrifugally Cast Tailshaft Bushes ...	August	133	Aluminium Tanks for Sea Transport of Liquefied Natural Gas ...	September	149
Continuous-cast Bronze Bushings ...	September	151	Apparatus for Loading or Discharging Liquids On To or From Ships*	August	143
Dynamic Testing Machine for Large Diesel Engine Bearings ...	November	195	Buoyant Container for Transport of Liquids*	January	17
On Critical Speeds Induced by Ball Bearings at Lower Speeds of Rotation ...	January	15	Cargo Transporter ...	June	101
Pivoted Pad Bearings ...	January	15	Containers for Liquefied Gas Transportation*	February	35
Position of the Shaft and Triple-wedge Bearing ...	June	105	Device for Closing and Opening Hatchways*	April	71
Radially Loaded Journal Bearing with Grease Lubrication ...	October	174	Floating Storage Tank*	October	179
Sealing Characteristics of Stuffing Box Seals for Rotating Shaft ...	May	87	Hatch Cover* ...	November	197
Slackness of Anti-friction Bearings ...	February	33	Hatch Cover* ...	June	107
Spray Facing of Friction Bearings ...	September	158	Loading and Discharging Oil*	April	72
Synthetic Rubber-faced Stern Tube and Strut Bearings ...	July	115	Maritime Transportation of Unitized Cargo	August	136
Theoretical and Experimental Analysis of Hydrostatic Thrust Bearings ...	December	213	New Gravity Davit ...	May	79
Theory of Grease Lubrication of Cylindrical Roller Bearing ...	October	178	Rain Tent for Hatch ...	December	201
Vane Type Pump with Kingsbury Slippers...	December	212	Remote Control of Oil Tanker Cargo Valves	October	175
BOILER AND ENGINE COMPONENTS					
Automatic Boiler Control ...	January	15	Steels and Aluminium Alloy Hatchway Beams	August	142
Dynamics of Superheater Control ...	January	16	Structures for Subdividing Holds and 'Tweendecks* ...	January	18
Low Height Fuel Pump ...	September	157	T-2 Ships Containerized ...	November	196
Main Boiler Operation and Maintenance ...	February	31	Tanker to Carry Propane ...	September	152
			Vertically Mounted Cargo Winches...	September	157
			Welded Aluminium Tanks for Sea Transport of Ammonium Carbonate ...	January	16
			Winches for the Derricks of Ships* ...	April	71
			COMPRESSORS		
			Application of Pneumatic Equipment to Centralized Control of Compressors ...	March	51
			Free Piston Gas Operated Compressor ...	March	49
			Lightweight Starting Air Compressor ...	December	206
			Rotary Air Motors ...	April	68

* Patent Specification

	Issue	Page		Issue	Page
CORROSION AND FOULING					
Anti-corrosion Tests in the <i>British Kiwi</i> ...	January	8	British Oil Tanker	March	38
Anti-fouling Treatment for Ships	September	151	Crankshaft Strength and Design	January	14
Cathodic Protection on Hazardous Area Steel Docks	October	167	Detergent Oils for Diesel Engines	July	118
Controlling Internal Corrosion of Tankers ...	April	63	Diesel Engine in Association with Gas Turbine	June	91
Corrosion Behaviour of Welded Low Alloy Steel	June	106	Diesel Engine for 2,650 HP per Cylinder ...	February	28
Corrosion Design in Marine Application of Aluminium Alloy Floodlights	July	123	Distant Water Trawler <i>Westella</i>	July	112
Corrosion Pitting of Iron in Distilled Water	May	87	Engine for 25,000 BHP	January	11
Corrosion Problems in Ships	September	159	Fiat Engine with 26,650 BHP per Cylinder...	January	6
Corrosion Tests on Materials Exposed in Flue Gases from Oil Firing	July	124	Gas Turbine Fire Pump	January	14
Corrosion of Welded or Coated Mild Steel and of Boiler Tubes in Highly Saline Water	June	101	Heavy Oil Tests on Two Stroke Engine ...	November	192
Electrical Bonding of Cathodically Protected to Unprotected Ships	April	57	High Speed Engine for Boiler Oil	November	191
Epoxy Resin Based Coatings for Storage Tanks	March	40	High Speed Heavy Duty Engine	July	121
Experimental Study of Cavitation in Centrifugal Pump Impellers	September	159	Influence of Exhaust Belt on the Discharge Process in Two-stroke Engines	August	142
Experiments on Prevention of Pitting Attack on Cast Iron Propellers by Cathodic Protection	May	81	Japanese-built 15,500-18,000 BHP M.A.N. Engine	June	98
Growth and Scaling of Cast Iron	April	70	Large Bore Diesel Engine	January	12
Heterocyclic Amines for Flue Gas Corrosion Control	November	191	Large Diesels in Japan	May	75
Indentation of Metals by Cavitation	August	132	Large German Diesel Engine	March	43
Influence of Silicon in Cast Iron on Corrosive Wear	August	138	Low Height Fuel Pump	September	157
Laboratory Evaluation of Zinc Anodes in Sea Water	June	105	Manufacture of Doxford Crankshafts	May	87
Lead-silver Alloy Anodes for Ship Protection	April	55	Manufacture and Maintenance of Marine Diesel Parts	September	160
Marine Corrosion Tests on Plain and Low Alloy Steels	May	88	Near Water Trawler	February	28
Metal Diffusion Chromizing Process	February	20	New Dutch Diesel Engine	March	44
Microcracked Chromium	October	177	New Range of Turbochargers	December	212
New Anti-fouling System	July	123	Norwegian-built Diesel Engine	October	173
Oil-ash Corrosion of Superheater Alloys	August	128	Oil Cooling of Pistons	May	90
Performance of Zinc Anodes in Sea Water ...	October	178	Passenger Vehicle Ferry <i>Napoleon</i>	July	109
Plate Thickness Measurement	January	5	Pressure Charging of Werkspoor Two-stroke Diesel	February	26
Platinum Anode Designs for Cathodic Protection of Ships	March	49	Scavenging of Two-stroke Diesel Engines ...	June	105
Protection by Metallization and by Electrolysis of Ships	August	141	Shimatsu-Mitsubishi Nagasaki 6-UET 45/75-type Diesel Engine	February	33
Protection of Shell Plating While Fitting Out	May	83	Some Investigations on Cold Starting Phenomena in Diesel Engines	March	48
Recording Electrical Resistance Corrosion Meters	August	142	Starting Fluids for Diesel Engines	August	127
Residual Oil Ash Corrosion Problem	March	43	Tests of Australian-built Doxford Engine on Heavy Fuel	April	68
Sprayed Metal Coatings for Abrasion, Corrosion and Oxidation Resistance	August	142	Trials of Gas Turbine Ship <i>Auris</i>	January	11
Ultrasonic Measurement of Tank Ship Corrosion Losses	April	58	Turbocharged Doxford Engine	January	2
DECK AND CARGO MACHINERY					
A.C. Electric Ship Winches	October	164	Twelve-cylinder, 18,240 BHP Japanese-built Sulzer Engine	June	100
Apparatus for Loading or Discharging Liquids On To or From Ships*	August	143	DISTILLING AND WATER TREATMENT		
Cargo Transporter	June	101	Distilling and Water Treatment	February	24
Derrick with the Advantages of a Deck Crane	February	22	Evaporator*	June	108
Device for Closing and Opening Hatchways	April	71	Flash Evaporator	May	76
Gas Extraction Plant for Tanker	February	24	Flash Evaporators for Distillation of Sea Water	February	24
Hatch Cover*	June	107	Sea Water Evaporator*	July	125
Oil Cargo Pump Seal	March	40	Werkspoor Seawater Evaporator	October	177
Steam Turbine-driven Deck Machinery	September	158	DOCKS, HARBOURS AND BERTHING		
Vertically Mounted Cargo Winches	September	157	Conversion of Liberty Ships into Floating Docks	January	5
Winches for the Derricks of Ships*	April	71	"Electric" Gangway	July	123
DIESEL ENGINES AND GAS TURBINES					
3,000 BHP per Cylinder Engine	December	205	Forging of Admiralty Type Anchors	November	95
3,500 BHP Tug with Vee-belt Transmission	December	200	Mooring Anchors	April	60
Air-cooled Diesels for Marine Use	December	202	Seagoing Ships Built in Vienna	August	142
			Remotely Controlled Bilge Blocks	July	110
			ECONOMICS		
			Economic Comparison of Steam vs. Diesel for Oil Tanker Propulsion	August	132
			Economics of Steam <i>Versus</i> Diesel Tanker ...	February	22
			EJECTORS		
			Studies of Jet Compression	February	33
			Vapour Compression Water Still	February	22
			ELECTRICAL EQUIPMENT AND INSTALLATION		
			A.C. Adjustable Speed Drive for Ships ...	June	94
			A.C. Electric Ship Winches	October	164

	Issue	Page		Issue	Page
Aluminium Bus Bars for Shipboard Application	February	20	Dry Fluid Centrifugal Coupling	October	163
Cell for Direct Production of Electricity from Fuel	April	69	Electromagnetic Slip Coupling	August	132
Machinery Proposal for Mammoth Liner ...	December	211	Extreme Pressure Lubricants for Marine Gears	February	23
New Electric Switch	August	137	Helixform Bevel and Hypoid Gears	October	178
Open Submersible Motors	February	28	Increasing the Reduction Ratio with the Epicyclic Gears Powered by Direct-mounted Motor	March	51
Thermoelectric Air Conditioning and Refrigeration	January	8	Marine Gears	November	188
ELECTRONICS			Twinworm Drive—Self-locking Wormgear Transmissions of High Efficiency	October	177
Some Aspects of Guided Weapons	February	34	Wear of Gear Teeth	April	70
FIRE PREVENTION			HARBOUR EQUIPMENT		
Fire Prevention by Inert Gas	November	193	Compressed Air for Smoothing Rough Waters	October	178
FISHING			Movable Ferry Piers Owned by the Danish State Railways	January	16
Electro Fishing	August	135	Ship's Gangway for Hamburg Harbour ...	January	15
FUELS AND COMBUSTION			Submarine Pipe Line and Sea Terminal ...	January	16
Cell for Direct Production of Electricity from Fuel	April	69	HEAT EXCHANGERS		
Combustion Equipment for the <i>Canberra</i> ...	December	199	Design and Construction of Feedwater Heaters	February	19
Determination of SO ₂ , SO ₃ , and H ₂ S in Combustion Gases	December	213	Examination of a Non-regenerative Heat Exchanger from the U.S.S. <i>Nautilus</i>	October	176
Determination of Sulphur Trioxide and Sulphur Dioxide in Flue Gases	April	69	Heat Exchanger Tube Sheet Design—3: U-tube and Bayonet Tube Sheets	June	105
Experimental Investigation of Fuel Additives in a Supercharged Boiler	August	141	Optimization of Heater Enthalpy Rises in Feed-heating Trains	August	142
Flow Processes in Turbulent Oil Burners with Controllable Whirl and with Free Jets Symmetrical to the Rotational Axis	April	70	Plate Heat Exchanger	January	9
Influence of Hydrogen or Deuterium on the Flame Propagation Velocity of Carbon Monoxide and Air Mixtures	August	142	Pressure Loss and Heat Transfer with Swirled Flow	March	52
Laboratory Tests on the Behaviour of Fuels in Furnaces	April	69	Use of Thin Films for Increasing Evaporation and Condensation Rates	April	66
Oil Burners for Orient Liner <i>Oriana</i>	May	78	HEAT TRANSFER		
Power Generation*	August	144	Heat Transfer and Pressure Loss in Tube Bundles for High Performance Heat Exchangers and Fuel Elements	June	96
Purification of Heavy Oil	February	33	Heat Transfer and Thermal Stress of Finned Tubes	June	106
Residual Oil Ash Corrosion Problem	March	43	Influence of Surface Roughness upon Heat Transfer	June	92
Starting Fluids for Diesel Engines	August	127	Pressure Loss and Heat Transfer with Swirled Flow	March	52
Water Wash of Bunker C Oil	November	195	Stabilization of Flow Distribution in Forced Flow Heating Surfaces	October	178
GAS TURBINES AND FREE PISTONS			Use of Thin Films for Increasing Evaporation and Condensation Rates	April	66
Compound Power Plant Concept	June	98	ICE ADHESION		
Development of 3,500 HP Marine Gas Turbine	July	113	Ice Adhesion Studies	November	185
Diesel Engine in Association with Gas Turbine	June	91	INSPECTION AND TESTING		
Dutch Built Free Piston Engines	March	45	Accelerograph	January	15
Exhaust Turbine in the <i>Goodwood</i>	April	62	Buckling and Corrugation of Continuous Panel with Initial Deflexion	January	15
Free-piston Engined Cargo Vessel	September	147	Detection of Incipient Fatigue in Metals by Ultrasonics	January	8
Free Piston Gas Operated Compressor	March	49	Electrical Model Used to Analyse Torsional Vibration in a Diesel Engine	January	8
Liquid Cooled Gas Turbine for 1,750 deg. F. Lubrication of Free Piston Engines	September	154	Evaluation of Weld-joint Flaws	April	69
Marine and Mobile Applications of Industrial Gas Turbines	April	59	Immersed Inspection of Metal Plate	February	34
Recovery of Heat from Gas Turbines for Heating Purposes	August	141	Measuring Small Oil Leakage	August	142
Reduction of Noise in Marine Gas Turbine Installations	March	52	Photographic Pipe Interiors	June	105
Small Gas Turbine	August	131	Plate Thickness Measurement	January	5
Starting Clutch for Gas Turbine	July	120	Radioactive Cylinders—A Tool for Wear Research	September	160
Test Results for the First Pulverized Fuel Fired Hot Air Gas Turbine	April	56	Recent Advances in New Areas of Non-destructive Testing	September	159
Werkspoor Gas Turbine Installation with Free Piston Gasifiers	March	52	Study of Brittle Fracture of Ship Plate by Electron Microscopy	June	106
GEARING AND COUPLINGS			Taper-measuring Instrument	May	73
Accuracy of Hobbed Gears and Means for Improving It	November	194	Testing of Wire Ropes	October	176
Analysis of Factors Used for Strength Rating of Helical Gears	April	69			
Compact Marine Gearbox	October	177			
	December	210			

	Issue	Page		Issue	Page
Ultrasonic Measurement of Tank Ship Corrosion Losses	April	58	Oil Cooling of Pistons*	May	90
Ultrasonic Testing of Crankshafts	October	168	Planned Maintenance of Large Direct Drive Diesel Installations	July	114
Ultrasonic Weld Inspection	October	172	Pressure Charging of Werkspoor Two-stroke Diesel	February	26
Ultrasonic Testing of Welds	May	86	Quartz Piston Engine	December	213
INSTRUMENTS AND CONTROLS			Scavenging of Two-stroke Diesel Engines	June	105
Accelerograph	January	15	Shimpatsu-Mitsubishi Nagasaki 6-UET 45/75-type Diesel Engine	February	33
Application of Pneumatic Equipment to Centralized Control of Compressors	March	51	Some Investigations on Cold Starting Phenomena in Diesel Engines	March	48
Automatic Boiler Control	January	15	Split-roller Crankshaft Bearing	July	114
Automatic Control of Auxiliary Exhaust Steam Pressure	February	26	Starting Fluids for Diesel Engines	August	127
Continuous Ullage Recording	October	167	Study of Cylinder Wear with the Use of Radiotracers	July	123
Control Gear for Ship Stabilization*	June	107	Supercharging Large Two-stroke Engines with Transverse Scavenging	February	22
Control System for Nuclear Power Plant*	March	53	Tests of Australian-built Doxford Engine on Heavy Fuel	April	68
Instrumentation of Nuclear Power Plants	March	52	Twelve-cylinder, 18,240 BHP Japanese-built Sulzer Engine	June	100
Integrating Power Meter	July	115	Vibration Problems in Marine Engineering and Their Solution	June	102
Measuring Arrangements for Determining the Mean Draught, The Mean Heeling Position, or the Mean Trim of a Ship*	August	143	LIFE SAVING EQUIPMENT		
Measuring Speed, Acceleration and Torque Multiple Steering Control	May	75	Hydraulic Jet Lifeboats	November	189
Multiple Steering Control	March	46	Inflatable Liferaft*	October	179
Pneumatic Control Systems	February	24	Inflatable Life Raft*	January	19
Probe for Measuring Acid Deposition in Flue Gases	September	148	Lifeboat Canopies*	March	53
Recording Electrical Resistance Corrosion Meters	August	142	New Gravity Davit	May	79
Remote Control of Oil Tanker Cargo Valves	October	175	No Maintenance Plus Zero Weather	May	81
Ship's Draught Indication System	November	183	Novel Liferaft with Cabin	December	208
Ship's Power Meter	July	117	Ships' Davits*... ..	March	54
Transverse Strength of Single-hulled Ships	July	113	LUBRICATION		
True Motion Radar	February	21	Bearing Oil Ring Performance	April	69
Underwater Television	November	182	Continuous-cast Bronze Bushings	September	151
Uses of Computers in Shipbuilding	July	111	Development Testing and Application of Petroleum Based Launching Lubricants	January	16
Venturi Pneumatic Pyrometer	November	188	Detergent Oils for Diesel Engines	July	118
INTERNAL COMBUSTION ENGINES			Dynamic Theory of Piston Ring Lubrication	October	177
3,000 BHP per Cylinder Engine	December	205	Extreme Pressure Lubricants for Marine Gears	February	23
Air-cooled Diesels for Marine Use	December	202	Lubrication of Free Piston Engines	April	59
Approximate Method for the Rapid Determination of Turbocharger Design Data in Two-stroke Diesels	February	33	Lubrication Problems of Internal Combustion Engines	November	194
Diesel Engine for 2,650 HP per Cylinder	February	28	Position of the Shaft and Triple-wedge Bearing	June	105
Dutch Built Free Piston Engines	March	45	Purification of Heavy Oil	February	33
Dynamic Theory of Piston Ring Lubrication	October	177	Rotary Bomb Oxidation Test	June	103
Free-piston Engined Cargo Vessel	September	147	Sealing Characteristics of Stuffing Box Seals for Rotating Shafts	May	87
Free Piston Gas Operated Compressor	March	49	Theory of Grease Lubrication of Cylindrical Roller Bearing	October	178
Heavy Oil Tests on Two-stroke Engine	November	192	Turbulent Lubrication	July	124
High Speed Engine Boiler Oil	November	191	MACHINE TOOLS AND PROCESSES		
High Speed Heavy Duty Engine	July	121	Accuracy of Hobbled Gears and Means for Improving It	April	69
Influence of Atmospheric Pressure and Temperature upon the Performance of the Naturally Aspirated Four-stroke C.I. Engine	July	114	Cast and Welded Stern Post of Atomic Ice-breaker	April	70
Influence of Exhaust Belt on the Discharge Process in Two-stroke Engines	August	142	Coupling Flange Boring Machine	April	57
Japanese-built 15,500-18,000 BHP M.A.N. Engine	June	98	Hydraulic Nut	September	148
Large Diesels in Japan	May	75	Hydrodynamic Effect Between Approaching Surfaces—Its Influence on Surface Profiles During Plastic Deformation	November	195
Large German Diesel Engine	March	43	Jig for Boring Flange Holes	January	7
Low Height Fuel Pump	September	157	Machining High Alloy Steels	March	51
Lubrication Problems of Internal Combustion Engines	November	194	Manufacture of Doxford Crankshafts	May	87
Lubrication of Free Piston Engines	April	59	Modern Chain Manufacture	April	69
Manufacture of Doxford Crankshafts	May	87	New Surfacing Methods for High Temperature Process Applications	December	214
Manufacture and Maintenance of Marine Diesel Parts	September	160	Repair of Pump Casings with Plastic	February	31
New Dutch Diesel Engine	March	44	Self-loading Hopper and Blasting Machine	March	40
New Range of Turbochargers	December	212	Taper-measuring Instrument	May	73
Norwegian-built Diesel Engine	October	173			
NSU-Wankel Rotary Engine	June	96			
Oil Consumption Determination by Tritium Tagging	December	213			

	Issue	Page		Issue	Page
MATERIALS AND STRESSES					
Additional Deflexion of a Cantilever Due to the Elasticity of the Support	November	196	Replication Technique for the Study of Brittle Fracture of Ship Plate by Electron Microscopy	April	70
Aluminium in Reactor Construction	December	214	Simulation of Shock and Vibration Environment	September	160
Aluminium Tanks for Sea Transport of Liquefied Natural Gas	September	149	Spontaneously Induced Brittle Fractures	January	5
Behaviour of Round Steel Chains under Static and Fatigue Stress	March	52	Steels for Containment of Liquefied Gas Cargoes	March	42
Brittle Fracture	July	123	Strength of Seamless and Welded Tubes under Alternating Torsional Stress	August	141
Brittle Fracture Propagation in Six-foot Wide Steel Plates	March	37	Stresses and Deflexions Due to Local Loading on Cylindrical Shells	September	159
Chromium Plating on Stellite	January	5	Stresses in Cylindrical Shells of Finite Length	May	87
Circular Patch Test for Evaluating Armour Crack Susceptibility	October	178	Stress Distribution in Wide Plates During Brittle Fracture Propagation	July	113
Creep Properties of Pearlitic Nodular Graphite Cast Iron at 400 deg. C.	August	141	Stress Measurement of Propeller Shaft Under Operating Conditions	September	159
Creep Tests on a Flake Graphite Cast Iron at 400 deg. C.	March	51	Stress/Strain Properties of Flake Graphite Cast Iron	February	24
Critical Stresses and Mode of Failure of Wire Rope	February	34	Stress Waves in Elastic Plates	June	104
Determination of Transition Temperature	November	195	Study of Brittle Fracture of Ship Plate by Electron Microscopy	June	106
Effect of Bearing Pressure on Static Strength of Riveted Connexions	May	87	Study of the Onset of Fatigue Damage Due to Fretting	May	83
Effect of Elevated Temperature on Pressure Vessel Steels	October	174	Transient and Residual Thermal Stress in an Elastic-plastic Cylinder	December	213
Effect of Mean Stress on Fatigue of Metals under Combined Torsion and Axial Load of Bending	February	34	Triaxial Tension at the Head of a Rapidly Running Crack in a Plate	April	70
Effect of Presetting Helical Compression	May	87	Welded Aluminium Tanks for Sea Transport of Ammonium Carbonate	January	16
Effect of the Methods Used in the Making and Working of Steel on the Pitting Corrosion of Shipbuilding Steel	December	214	METALLURGY		
Effect of Residual Welding Stress on Brittle Fracture	July	124	Chromium Plating on Stellite	January	5
Effect of Small Cavities on Fatigue Strength	October	175	Creep Tests on a Flake Graphite Cast Iron at 400 deg. C.	March	51
Efficiency of Steel Ropes	May	88	Embrittlement of Steel Through the Absorption of Atomic Hydrogen	February	32
Embrittlement of Steel Through the Absorption of Atomic Hydrogen	February	32	Hydrogen Embrittlement Susceptibility of Some Steels and Non-ferrous Alloys	June	95
Epoxide Resins	January	6	Metal Diffusion Chromizing Process	February	20
Expansion of Thick-walled Cylinders Fabricated from Cold Bent Plates	November	196	Prestrain, Size and Residual Stresses in Static Brittle Fracture Initiation	February	25
Fibreglass Reinforced Plastics for Marine Structures	July	118	Replication Technique for the Study of Brittle Fracture of Ship Plate Steel by Electron Microscopy	April	70
Flexural Fatigue Strength of Butt Welds in Aluminium Alloy	October	174	Spontaneously Induced Brittle Fractures	January	5
Glass Ceramics	January	2	Steels for the Containment of Liquefied Gas Cargoes	March	42
Growth and Scaling of Cast Iron	April	70	Stress/Strain Properties of Flake Graphite Cast Iron	February	24
Hard Facing with "Stellite" Powders	August	142	Teaching of Metallurgy to Engineers	December	213
Heat Exchanger Tube Sheet Design—3: U-tube and Bayonet Tube Sheets	June	105	NAVIGATION AND NAVIGATIONAL EQUIPMENT		
Heat Treatment of Cast Iron Piston Rings	October	177	Dynamic Positioning for Deep Drilling	October	170
Hydrogen Embrittlement Susceptibility of Some Steels and Non-ferrous Alloys	June	95	Factors Affecting Radar Operator Efficiency	June	105
Increased Alloy Fatigue Strength	October	177	Geo-magnetic Log	November	195
Indentation of Metals by Cavitation	August	132	Inertial Techniques for Marine Navigation	April	70
Materials and Welding in Nuclear Reactor Construction	September	160	Marine Direction Finder	August	138
Metal Diffusion Chromizing Process	February	20	Mooring Anchors	April	60
Non-metallic Materials Used in Shipbuilding	May	88	New Radar System	October	173
Notch Ductility and Tensile Properties of Some Synthetic Mild Steels	November	194	Turn Signals for American Vessels	June	104
Notch-rupture Strength of Type 347 Austenitic Steel Heat-affected Zone	October	177	Use of Decca Navigator for Ship Launchings	June	103
Overstrain Tests on Thick-walled Cylinders	August	141	NUCLEAR PLANT		
Prestrain, Size and Residual Stresses in Static Brittle Fracture Initiation	February	25	Aluminium in Reactor Construction	December	214
Problem on Stress Waves in an Infinite Elastic Plate	February	33	Analogue Computer Study of Merchant Ship Nuclear Reactor	November	195
Properties of Cements for Joining Materials	March	52	Application of Nuclear Energy for Ship Propulsion in Germany	February	33
Relation between Critical Alternating Propagation Stress and Crack Length	June	104	Application of the OMR to Ship Propulsion	December	214
Repair of Pump Casings with Plastic	February	31	Application of the OMR to Ship Propulsion	March	52
