

Marine Engineering and Shipbuilding Abstracts

Index to Volume 28, 1965

	Issue	Page		Issue	Page
AIR COMPRESSORS					
Compressor Output Tester	October	165	New Equipment for More Efficient Cargo Handling	November	183
ANCHORS, CABLES AND RIGGING					
Automatic Anchor Guide	August	129	Refrigerated Ammonia Carrier	July	119
Tow Cable Snap Loads	August	142	Safety Measures in Harbours	May	79
AUXILIARY EQUIPMENT					
Oxygen Generator for Submarines	April	70	Shipboard Storage and Refrigeration of Freshly Caught Fish	June	108
BEARINGS					
Analysis of Plain Cylindrical Journal Bearings in Turbulent Regime	February	34	Simplified Hatch Cover	January	2
Fatigue Strength in Plain Bearings	February	26	Steam-driven Oil Hose Davits	August	130
Forced Cooling of a Slider Bearing	September	162	Thermal Bearings for Tanks Carrying Hot Liquids	July	111
Performance of Centrally Pivoted Sector Thrust Bearing Pads—Sea Trials Aboard U.S.S. <i>Barry</i>	April	69	Three-phase Ship's Grabbing Crane	January	2
Service Life of Roller Bearings	November	189	Transport of Natural Gas	September	155
Thrust Bearing with Pivoted Shoes	May	84	CAVITATION		
BOILERS AND ANCILLARY EQUIPMENT					
Boiler Automation	February	30	Cavitation Tests of Escort Research Vessel Counter-rotating Propellers 3808 and 3809 in Simulated Wake	March	54
Dynarac Optimization of a Boiler	April	70	Cavitation Tests on Hydrofoils Designed for Accelerating Flow Cascade	June	106
Effect of Non-uniformity of Heat Flux on Deposition of Scale in Steam Generating Tubes	February	34	Experimental Investigations of Incipient and Desinent Cavitation	February	34
Hydrogen Damage in Power Boilers	February	23	Forces on Supercavitating Hydrofoils with Internal Ventilation	January	3
Marine Boiler Radiant Heat Absorbing Surface and Furnace Size	August	141	Open Water and Cavitation Performance of Propeller	April	69
Methane Boil-off for Boilers of Methane Carriers	September	160	Prevention of Face Cavitation of Propeller	March	37
New Marine Boilers	June	95	Scale Effect on Cavitation for Blade Profiles	April	57
Removing Boiler Fire Side Deposits	January	5	Supercavitating Foils with Flaps Beneath a Free Surface	June	105
Waste Heat Boilers for Motor Ships	May	88	CORROSION AND FOULING		
CARGO HANDLING AND STOWAGE					
Berthing and Cargo Handling	April	67	Adhesives and Sealants in Corrosion Control	March	54
Cargo Handling at Sea	June	106	Artificial Pits for Quantitative Studies of Corrosion of Aluminium Alloys in Natural Waters	July	126
Cargo Handling by Remote Control	July	122	Cathodic Protection and Steels	January	10
Cargo Handling System	May	86	Coatings for Steel Piling in Sea Water	April	69
Cargo Pumping	November	191	Comparison of Self-curing and Post-curing in Organic Zinc Coatings	January	17
Cargo Ship*	November	199	Corrosion Measurement	November	195
Cargo Vessel*	December	215	Corrosion of Aluminium Alloys	January	6
Carriage of Special Liquid Cargoes	October	173	Corrosion of Steels and Nickel Alloys in Superheated Steam	August	142
Carriage of Special Liquid Cargoes—Control Measures for L.N.G. Ships	October	168	Corrosion Resistance of the Austenitic Stainless Steels in Marine Environments	May	82
Clean Ballast System	July	123	Development of Apparatus for Measurement of High Temperature Corrosion	January	18
Container for Storing or Transporting a Liquid*	September	163	Effect of Supplementary Alloying Elements on Pitting Corrosion Susceptibility of 18Cr-14Ni Stainless Steel	January	18
Deep Sea L.N.G. Carriers	June	98	Electro-chemical Study of the Cracking of Welded Stainless Steel	August	141
Fast Hatch Security and Water-tightness	November	184			
Heavy Lift Cargo Gear	March	38			
Iso-thermic Unitized Cargo System	July	118			
Mechanized Pallet Carriers	September	151			

* Patent Specification

	Issue	Page		Issue	Page
Heat Treatment to Reduce De-aluminification of Aluminium Bronze in a Saline Solution	February	34	Low-head Marine Steam Turbine	April	65
Hot Sea Water Corrosion Study	August	141	Marine Turbine Thrusts	December	213
Hydrogen Embrittlement of Austenitic Stainless Steel	December	214	Monitoring Temperature Changes in Steam Turbines	February	33
Influence of Surface Treatment on the Corrosion of Stainless Steels in High Temperature Water and Steam	October	176	Package Turbines in Danish-built Tanker	June	104
Investigation of Corrosion Damage on Tubes of Heat Exchangers	October	178	Prevention of Cyclic Thermal-stress Cracking in Steam-turbine Rotors	June	105
Metals Protection in Marine Environment	February	32	Projected Marine Steam Turbine Installation by Werkspoor	February	31
Organo-metallic Compound for Anti-seize Protection	September	161	Steam Turbine Propulsion for Tankers	July	110
Organotin-based Anti-fouling Coatings for Aluminium Boats	January	17	FIRE PREVENTION		
Plating Cast-iron Marine Engine Cylinder Liners with Protective Pore-free Nickel Coating	May	82	Inert Gas Blanketing	April	65
Protection of Welded Structures by Metal Spraying	July	125	Safety Measures in Harbours	May	79
Protective Coatings for Ship Bottoms	November	184	FISHING		
Radiography for Corrosion Evaluation	November	190	Factory Stern Trawler	October	171
Stress Corrosion Cracking in Marine Service Study of Corrosion by Fuel Oil Smoke High Temperature	October	178	Japanese-built Trawlers for Rumania	March	47
DECK AND CARGO MACHINERY			Refrigerated Stern Trawler	December	208
Automatic Mooring Winches	August	138	Relative Importance of Trawler Design	October	170
Constant-tension Mooring Winch	September	155	Service Performance and Seakeeping Trials on Two Conventional Trawlers	March	48
Hoisting Equipment at the Stern of Vessels* Investigations into the Strength of Ship's Derricks—Part I	October	180	Spanish Trawler	March	38
Mast Crane	September	162	Stern Fishing Device for Trawler*	July	128
Portable Derrick Crane for Heavy Lifts	December	202	Stern Trawler	September	150
Power-operated Pilot Ladder	February	29	Stern-trawling Technology and its Application	March	53
Three-phase Ship's Grabbing Crane	February	24	Trawler Cargo Discharge System	February	23
Towing and Hoisting Crane for Fishing Vessel*	January	2	Trawlers with Accelerated Fish Drying Tunnels	July	122
Trawler Cargo Discharge System	April	71	Ultrasonic Fish Detection	January	6
DISTILLING AND WATER TREATMENT			FUELS AND COMBUSTION		
Detection of Sodium Ions in Steam-water Cycles	February	33	Additives in Oil-fired Power Generating Equipment	September	162
Fresh Water from the Sea	October	177	Bunker C Fuel Oil	November	187
Production of Fresh Water from Sea Water—Thermodynamic Analysis of a Flash Distillation Method	December	202	Coefficients of Contamination and Utilization of the Convection Heating Surfaces of Boilers Fired with High Sulphur Oil and Cleaned with Iron Shot	January	17
Sea Water Distillation	February	33	Effect of the Air/Fuel Ratio on Flame Length in Oil-pressure Atomizing Burners	January	17
DOCKS, HARBOURS AND BERTHING			Heavy Fuel Oils for Medium-speed Diesel Engines	February	24
Berthing and Cargo Handling	March	54	Investigation of the Combustion of Single Drops of Hydrocarbon Fuels	January	18
Cranes	April	67	Low Cost Fuels in Diesel Engines	June	105
Dry Docks	July	113	Oil Burner	April	65
Mooring Facilities	January	12	Oil Burner Systems for Low Excess Air Operation	October	177
Port Equipment I	April	67	GAS TURBINES		
Port Equipment II	February	27	Dredger with Free Piston Plant	June	103
Safety Measures in Harbours	February	27	Installation and Operation of the Model LM100 Turboshaft Engine Aboard the h.s. <i>Denison</i>	May	89
ECONOMICS			Marine Applications of Gas Turbine Generating Sets	February	33
Problem of Time in Shipping Economics	May	79	Naphtha-burning Gas Turbine	May	84
Weight, Cost and Design Characteristics of Tankers and Dry Cargo Ships	December	214	Research on Steady Flow Performance of Exhaust Gas Turbine	January	17
ELECTRICAL EQUIPMENT AND INSTALLATION			Sea Experience of Bristol Siddeley Marine Gas Turbines	April	69
A.C. Diesel Electric Propulsion for Trawlers	January	7	Small Gas Turbine	April	66
Automatic Standby Generator	October	173	Use of Gas Turbines as Marine Auxiliary Machinery	June	106
Finite Magnetohydrodynamic Bearing	May	82	GEARINGS AND COUPLINGS		
Marine Electric Propulsion	May	89	Deflexion of Spur Teeth Cut in Thin Rims	July	126
Resistive Earthing of Electrical Distribution Systems in Ships	July	116	Epicyclic Gears	January	17
ENGINES—STEAM TURBINE			New Turbine Reduction Gear	November	185
Compiling the Programme for the Automatic Control of Steam Turbines	May	89	Reversing Gear	November	196
Japanese U-turbine Plant	October	173	GROUND EFFECT MACHINES AND HYDROFOILS		
	February	34	Captured Air Bubble Vehicle	January	8
	July	121	Cavity Flow Around Cambered Hydrofoils	June	106

	Issue	Page		Issue	Page
Choked Flow about Vented or Cavitating Hydrofoils	June	106	INSPECTION AND TESTING		
Coatings for Protection of High-speed Hydrofoils	October	178	Cavitation Tests on Hydrofoils Designed for Accelerating Flow Cascade	June	106
Effect of Surge, Added Mass, and Unsteady Lift on the Motion of a Hydrofoil Boat in a Seaway	January	5	Compressor Output Tester	October	165
Experience with the Hydrofoil Craft <i>Denison</i> Experimental Investigation of Flutter of a Fully Submerged Subcavitating Hydrofoil	October	178	Corrosion Measurement	November	195
Hovercraft Noise	November	188	Emissivity—Independent Infra-red Thermal Testing Method	November	198
Hydrofoil for U.S.A.—Canada Service	November	196	Experience with a Strut Supporting System for Testing Two-dimensional Fully Cavitating Hydrofoils	February	33
Hydrofoil Propulsion System and Design	October	178	Five-hole Spherical Pitot Tube for Three-dimensional Wake Measurement	April	70
Hydrofoil Ship for the Royal Canadian Navy Hydrofoils for Watercraft*	October	178	Full-size Pressure Vessel Testing and its Application to Design	May	90
Hydroskimmer Test Programme	September	164	Improved Eddy Current Tubing Test	November	197
Incidence Effects on a Static Hovercraft	June	103	Low-power Ultrasonic Techniques for Materials Inspection	August	141
Investigation of Hovercraft Wavemaking	October	174	Lubricant Fatigue Testing with Ceramic Balls	December	214
Linearized Theory of Supercavitating Hydrofoil with Jet Flap	May	73	Magnetic Methods of Non-destructive Testing Neutron Radiographic Inspection of Heavy Metals	April	69
Major Problems of Hydrofoil Craft	May	90	New Method for Detecting Tank Leakage	March	41
Motions of High-speed Hydrofoil Craft in Irregular Seas	November	185	Non-destructive Testing	April	62
New Hovercraft Concept	November	197	Nuclear Gauge for Measuring Superheater Tube Wall Thickness	May	81
New Results of Research on High-speed Hydrofoils	March	45	Optical Illusions in Radiography	September	159
Observations and Comments on Hydrofoils	October	177	Performance Characteristics of Elbow Flowmeters	April	69
Prediction of Lift and Cavitation Characteristics of Hydrofoil-strut Arrays	November	194	Radiography for Corrosion Evaluation	May	89
Propulsion System for Hydrofoil Vessel	December	214	Results of a Fifteen-year Programme of Flexural Fatigue Testing	November	190
Russian Air Cushion Passenger Boat	November	200	Television and Industrial Fluoroscopy	June	105
Russian River Hydrofoil Craft	November	181	Test Programme for German Nuclear Ship <i>Otto Hahn</i>	February	32
Theory of Peripheral Jets in Proximity to the Ground with Application to Ground Effect Machines	February	23	Testing of Air-cooled Heat Exchangers	August	135
Unsteady Hydrodynamic Loads and Flutter of Two-dimensional Hydrofoils	January	18	Testing Welded Seams in Boiler Construction	September	162
Vehicles Travelling Over Water*	October	177	Ultrasonic Inspection of Brazed Pipe Joints	July	126
	May	91	Ultrasonic Inspection of Tubes	May	78
			Ultrasonic Inspection System Employing Television Techniques	June	106
HABITABILITY			Ultrasonic Leak Testing Device	January	16
Acoustic Habitability of Ships	January	18	Ultrasonic Methods for Strip and Plate Testing	May	89
			Ultrasonic Non-destructive Test for the Detection of Improper Heat Treatment of Steel	April	70
HEAT EXCHANGERS AND HEAT TRANSFER			Ultrasonic Technique for the Evaluation of Heat Exchanger Brazed Joints	November	197
Burnt-out Conditions for Flow of Water in Vertical Round Ducts	September	148	Ultrasonic Testing in Submarine Construction	April	70
Determining the Emissivity of Gases in a Tube Bank	June	105	Use of Ultrasonics in Fatigue Testing	April	70
Fixed Tube-sheet Heat Exchangers	June	105		June	102
Heat Exchanger Controls for Diesel-engined Vessels	February	34			
Investigation of Corrosion Damage on Tubes of Heat Exchangers	March	53	INSTRUMENTS AND CONTROLS		
Optimum Gas and Air Velocities in Rotary Regenerative Air-heaters	September	148	Advanced Automation in British Cargo Liner Apparatus for Controlling both the Pitch of a Variable-pitch Propeller and the Output of at least one Propulsion Engine*	September	147
Testing of Air-cooled Heat Exchangers	October	178	Automated American Cargo Vessel	February	36
Thermodynamic Analysis of Heat Exchangers	January	17	Automated Cargo Liners	August	135
Ultrasonic Technique for the Evaluation of Heat Exchanger Brazed Joints	September	162	Automated Valves	July	116
	April	70	Automatic Boiler Control	July	120
			Automatic Bridge Control System for Stork Engines	January	16
HYDRAULIC PLANT			Automatic Machinery Control in British Cargo Liner	September	156
Centralized Hydraulic Control Systems	January	17	Automatic Power and Propeller Pitch Control Automation and Ships	August	136
Free-surface Water Tank for Testing Rotating Blades	September	162	Automation for German Refrigerated Vessel Boiler Automation	March	43
Hydraulic Fluid Research	April	60	Bridge Control of Gotaverken Engines	February	30
Hydraulic Low Speed Motors	March	54	Bridge Control System	September	146
Hydraulic Pump	May	87		November	182
Hydraulic Torque Generator	April	63			
Hydro-pneumatic Accumulators	September	161			
Light-weight Hydraulic Motors	September	147			
	June	95			
	March	42			
ICE AND ICEBREAKERS					
Finnish-built Icebreaker for Germany	June	96			
Icebreaking Fireboat	June	101			
Icebreaking Tug for Sweden	June	134			

	Issue	Page		Issue	Page
Cargo Handling by Remote Control	July	122	Noise Behaviour in Four-stroke Diesel Engines	December	213
Centralized Hydraulic Control Systems ...	April	60	Opposed-piston Internal Combustion Engine* Poppet Inlet Valve Characteristics and their Influence on the Induction Process ...	October	179
Combined Propulsional and Directional Control Device for Hydrofoil Craft* ...	August	143	Remote Control of Götaverken Engine ...	February	26
Compiling the Programme for the Automatic Control of Steam Turbines	February	34	Remote Control System for Doxford Engine	March	49
Complete Automation for a Propulsion Installation	September	147	Running Large Marine Diesel Engines on Crude Oil	August	132
Control Engineering for Ships	August	141	Some Vibration Experiments on a Single-cylinder Diesel Engine	May	89
Data Logging in Bulk Carrier	September	154	Tanker with Large-bore Engine	March	53
Digital Computer for Predicting Steam Turbine Performance	July	126	Turbochargers for Highly Rated Engines ...	November	190
Electronic Equipment for Recording Faults in Chronological Order	March	53	Unorthodox Russian Engine	March	46
Engineering Aspects of Prototype Marine Control Station	October	169		April	70
Heat Exchanger Controls for Diesel-engined Vessels	September	148	JOINTING AND SEALING		
Machinery Usage and Design for Nuclear Ship	June	100	Analysis and Test of Screw Seal in Laminar and Turbulent Operation	November	198
Marine Data Logging	October	169	Metallic Seals for Deep Submergence Underwater Vehicles	December	211
Monitoring Temperature Changes in Steam Turbines	February	33	Rubbing Contact Materials for Face Type Mechanical Seals	August	141
Norwegian Ship Automation	September	157	LIFE SAVING EQUIPMENT		
Nuclear Gauge for Measuring Superheater Tube Wall Thickness	September	159	Lifeboat*	January	20
Remote Control	September	156	Improved Launching Apparatus for Life Rafts*	February	35
Remote Control of Götaverken Engine ...	March	49	LUBRICATION		
Remote Control System for Doxford Engine	August	132	Dependence of the Viscosity Index of an Oil on Pressure and Temperature	September	161
Resistance Strain Gauges for High Temperatures	January	10	Design and Field Experience with Non-lubricated Piston Rings and Packing for Reciprocating Compressors	June	106
Resistance Thermometers	June	99	Lubricant Fatigue Testing with Ceramic Balls	December	214
Superheater Outlet Thermometers	March	44	Lubrication of Bevel Gears	October	178
Swedish Main Engine Remote Control ...	July	121	Lubrication of Medium-speed Marine Diesel Engines	December	209
Swedish Remote Control System	October	172	Marine Turbine Thrusts	December	213
Thermistor for Measuring Sea Water Temperature	July	120	New Lubricating Oil Purification System ...	August	140
Turbine Power Measurement	December	209	Noise Behaviour in Four-stroke Diesel Engines	December	213
Turbine Vessel with Central Operations System Control	October	170	Organo-metallic Compound for Anti-seize Protection	September	161
INTERNAL COMBUSTION ENGINES			Solids and Solids Lubrication	November	198
3,200-b.h.p. Vee-type Engine	July	118	MACHINE TOOLS AND PROCESSES		
32,500-b.h.p. Diesel Engine	June	106	Advantages of Producing Components as Iron Castings	March	54
A.C. Diesel Electric Propulsion for Trawlers	October	173	Superheater and Economizer Resurfacing Tool	March	41
Automatic Bridge Control Systems for Stork Engines	September	156	MATERIALS, STRUCTURES AND STRESSES		
Bridge Control of Götaverken Engines ...	September	146	Aluminium and its Alloys in 1964	December	214
Charge-air Cooling in C.I. Engines	January	12	Aluminium and its Use in Naval Craft ...	December	204
Cleaner Crankcases with Blow-by Diversion Cooled Exhaust Valves	February	26	Buckling and Post-buckling Behaviour of a Transversely Stiffened Ship Hull Model	May	89
Development of a Special High-efficiency Turbocharger Compressor for Straight Turbocharged Two-cycle Engines	November	198	Continuity of Cylindrical Shells Subjected to Uniformly Distributed Longitudinal Surface Loads	December	213
Emergency Stops with Directly-reversible Highly-supercharged Diesel Engines ...	November	196	Computation of Heat Conduction Processes by Electronic Computers	June	102
Engine with 3,100 b.h.p. per Cylinder ...	July	112	Correlation of Laboratory Determinations of Fracture Toughness with the Performance of Large Steel Pressure Vessels	April	69
High Flow Rate Internal-pintle Nozzle ...	February	25	Corrosion Aspects of Iron Austenitic Steels and Inconel in High Temperature Water	August	142
Japanese-built Sulzer Engine	July	112	Corrosion Resistance of the Austenitic Stainless Steels in Marine Environments ...	May	82
Latest Götaverken Diesel Engines	March	46	Crack-toughness Testing of Strain-rate Sensitive Materials	June	105
Lubrication of Medium-speed Marine Diesel Engines	December	209	Deep Sea Vehicles	January	10
Medium-speed Diesel Engines for Marine Propulsion	December	203	Effect of Austenitizing Temperature on the Mechanical Properties of Hardened and Tempered Nodular Iron	January	18
Modified Stork Fuel System	January	11			
New Engine with Variable Compression Ratio for Research Purposes	October	178			
New Fiat Medium-speed Engine	November	187			
New Propulsion Engine	April	62			
New Trunk-piston Type Engines	March	51			
New Vee-form Engine for Main Propulsion	May	76			
Nohab Polar Engines	November	192			

	Issue	Page		Issue	Page
Effect of Contaminants on Resistance to Stress Corrosion Cracking of Ni-Cr Alloy "600" in Pressurized Water	December	213	METALLURGY		
Effect of Plastic Deformation on the Corrosion of Iron and Steel	May	88	Effect of Austenitizing Temperature on the Mechanical Properties of Hardened and Tempered Nodular Iron	January	18
Effect of a Stringer on the Stress in a Cracked Sheet	November	197	Exhaustion of Ductility and Brittle Fracture of E-steel Caused by Pre-strain and Aging	January	11
Elastic Instability of Relatively Thick Circular Cylindrical Shells Subjected to Hydrostatic Pressure	March	49	High Grade Grey and Spheroidal Graphite Iron for Small Thin-walled Castings ...	February	32
Exhaustion of Ductility and Brittle Fracture of E-steel Caused by Pre-strain and Aging	January	11	Liquid Nitriding Process	May	84
Experience with the Hydrofoil Craft <i>Denison</i>	October	178	Metallurgical Aspects of Aluminium Bronze Welding Problems	December	213
External Stress Corrosion Cracking of Stainless Steel under Thermal Insulation ...	October	177	New Steel for Submarine Hulls	June	106
Fatigue Strength in Plain Bearings	February	26	Stress Corrosion Cracking of Face Centred Cubic Alloys	September	161
Faults in Cast Components for High-pressure High-temperature Service	December	214	Sub-ultimate Pre-strain and Aging in Mild Steel	March	52
Full-size Pressure Vessel Testing and its Application to Design	May	90	NAVIGATION AND NAVIGATIONAL EQUIPMENT		
Glass Submersibles	December	212	Acoustic Navigation Systems	May	90
High Grade Grey and Spheroidal Graphite Iron for Small Thin-walled Castings ...	February	32	Bow Propulsion Unit	July	124
Hydrogen Embrittlement—A Case History	June	105	Bow Thrust Units	January	8
Interpretation of the Mechanics of Crack Growth by Fatigue	April	70	Call for Better Ship Control	November	192
Investigations into the Strength of Ships' Derricks—Part I	September	162	High Accuracy Marine Navigation	April	67
Light-weight High-strength Laminate	January	17	Hydraulic Bow Thruster	April	58
Local Yielding and Extension of a Crack under Plane Stress	November	197	Log Recorder	January	1
