

JOURNAL OF NAVAL ENGINEERING

Vol.45

JUNE 2009

No.1

CONTENTS

PAGE

1.	SURVIVE: Warship Survivability Assessment from Concept to Service	1
2.	From Incident to Sinking - What is the Typical Time? A Look at the Data from World War II	19
3.	Maintaining Nuclear Safety in the Naval Nuclear Propulsion Programme	26
4.	Feasibility Studies for VTOL UAV Autonomous Operations with the Possibility of Ship Board Auto Recovery Using Quiescent Period Prediction.....	38
5.	Application of Dynamic V-Lines to Naval Vessels.....	63
6.	The Design of HMS Queen Elizabeth and HMS Prince of Wales....	74
7.	HALSS – Affordable Air Lift Platform for Navy and Humanitarian Missions.....	94
8.	The Hydrodynamic Design of the Queen Elizabeth Class Aircraft Carriers	116
9.	Book Reviews	140
10.	Notices	149
11.	Other Abstracts	151
12.	Naval Engineering Yesteryears	192

This Journal is the property of Her Majesty's Government. The contents are not to be communicated directly or indirectly to the press. Attention is drawn to the provisions of the Official Secrets Acts.

It is issued by the Chief Naval Engineer Officer. It need not be accounted for as a book of reference. Nothing contained in it is to be understood to supersede the Queen's Regulations (Royal Navy), or any other Ministry of Defence publication.

The Ministry of Defence does not necessarily endorse the views and opinions expressed in this Journal.
